MUNICIPALITY OF GROOTFONTEIN

No. 8

1992

AMENDMENT OF ELECTRICITY SUPPLY REGULATIONS

The Council of the Municipality of Grootfontein has under section 242 of the Municipality Ordinance, 1963 (Ordinance 13 of 1963), further amended the Electricity Supply Regulations promulgated under Government Notice 139 of 1957 by the substitution for Appendix "D" of the following appendix:

"APPENDIX 'D'"

Definitions

1. "A month" — for the purpose of this appendix shall mean a period of approximately 30 days corresponding to the period between two consecutive meter readings.

Tariffs and Charges

2. (a) All charges, fees and deposits provided for under these regulations shall be payable to the Council at the Municipal Office, Grootfontein.
- (b) In all cases where the classification of a consumer is doubtful, the Town Electrical Engineer shall decide on the tariff to be applied. Should the consumer not be satisfied with the decision of the Town Electrical Engineer, he may apply in writing to the Council for a review thereof.
- (c) If the consumer is not satisfied with the decision of the Council he may appeal to the Magistrate's Court. The court's decision shall be final.
3. (a) *Circuit Breakers:*
 - (i) Miniature circuit breakers shall be made available by the Council in a range of ampere ratings which shall normally be

multiples of 5 i.e. 15, 20, 25, etc. amperes, up to a maximum of 40 amperes per phase.

- (ii) A consumer requiring supply under these regulations for the first time at a particular installation shall select the rating of the municipal circuit breaker through which his installation is to be supplied.
 - (iii) If during the course of a twelve-month period after connection under these regulations, the selected rating is found by the consumer to be unsuitable, application may be made to the Town Electrical Engineer for a circuit breaker of a different rating. Such circuit breaker shall be installed free of charge. If during the said twelve months period, further changes of circuit breakers are desired, such changes shall be carried out at a cost of R5,00 each. After the end of the twelve-month period referred to above, circuit breakers shall only be replaced under the following conditions: -
 - (a) a written application accompanied by a payment of R10,00 must be submitted to the Town Treasurer;
 - (b) such application shall only be acceded to after the lapse of a period of six months from the date of application, except in special cases, where it can be shown, to the satisfaction of the Town Electrical Engineer, that change in the connected load of the installation justifies a proportional change in rating of the circuit breaker.
 - (iv) For the purpose of applying these tariffs, the Council shall have the right to require any consumer to state the capacity of the circuit breaker(s) required, and if a consumer fails to nominate the rating required, the Council may cause the installation to be connected through a circuit breaker or circuit breakers of 15 amperes rated capacity, and to levy the charges accordingly.
 - (v) In the event of a consumer's installation being connected or disconnected on a day which falls between the days on which consecutive monthly meter readings are taken, the fixed charge for the part of the month up to the reading of the meter, shall be a fraction of the monthly fixed charge, such fraction being the number of days of the month during which the consumer's installation is connected divided by 30.
- (b) Minimum charge:

The minimum fixed charge shall apply, irrespective of whether units are consumed or not, and shall include meter rent.

4. (a) *Tariff 1 — Domestic:*

For the supply of electricity at low voltage to all *bona fide* domestic consumers who use current for purposes of a domestic nature in private dwellings, flats or flatlets: -

(i) **FIXED CHARGE:**

Each consumer shall pay a monthly fixed charge in accordance with the following scale, based on the nominal rating(s) of the circuit breaker(s) through which all current consumed at the consumer's installation shall pass: Provided that where no circuit breaker is installed, although the service is available, the fixed charge shall be R7,65 per month.

(a) In respect of single-phase connections with circuit breaker ratings of:

15 amperes	— R 8,57
20 amperes	— R12,59
25 amperes	— R15,24
30 amperes	— R17,19
35 amperes	— R19,84
40 amperes	— R22,48
45 amperes	— R24,50

(b) For the two- and three-phase connections the charge shall be R8,57 for the first 15 amperes of summated rating, plus 23 cents per ampere on the remaining summated rating of the circuit breakers controlling the installation.

(ii) **UNIT CHARGE:**

In addition to the fixed charge, all units consumed shall be paid for at R0,1845 per unit.

(iii) **MINIMUM CHARGE:**

The minimum monthly charge as provided for in paragraph 3(b) shall be the fixed charge based on the circuit breaker rating(s).

(b) *Tariff IIA — General:*

(i) In respect of the supply at low or medium voltage for power and lightning purposes to the following types of consumers, and where the summated rating of the circuit breaker(s) required to control the installation does not exceed 54 amperes:

- (a) any type of consumer desiring supply under this tariff;
- (b) all temporary connections;
- (c) shops, offices, warehouses, banks, tearooms and restaurants, cinemas, clubs, churches, libraries, schools, filling stations, etc.;
- (d) all consumers not provided for under any tariff contained in this Appendix:

For the first 50 units per month R0,436 per unit.

All units in excess of 50 units per
month R0,2811 per unit.

(ii) Minimum monthly charge R21,85.

(iii) Installations taking supply under this tariff shall be controlled by circuit breakers, one in each phase, the maximum summated rating of which shall not exceed 45 amperes, and all current consumed at the installation shall pass through such circuit breakers.

(c) *Tariff IIB — General and Industrial:*

(i) In respect of the supply at low or medium voltage for industrial and manufacturing purposes and for the supply to private and licensed hotels, school hostels, hospitals and flats metered in blocks, where the summated rating of circuit breaker(s) required to control the installation exceeds 45 amperes: -

(a) For the first 200 units per month — R0,437 per unit;

(b) All units in excess of 200 units per month — R0,2811 per unit.

(ii) Minimum monthly charge — R87,40.

(iii) (a) Municipal consumption only industrial units used — R0,1812;

(b) Domestic consumption — as applicable for normal domestic use.

(d) *Special Arrangements:*

Notwithstanding any of the foregoing scales and charges, the Council may with the approval of the Minister charged with local government Affairs enter into special agreements with large consumers for the supply of electricity in bulk for industrial or other purposes:

(e) *Miscellaneous Charges:*

(i) TEMPORARY DISCONNECTION AND RECONNECTION:

(a) For connection on entering into agreement of supply with the Council — R3,80;

(b) For disconnection on termination of such agreement with the Council — Nil;

(c) For temporary disconnection required by consumers — Nil;

(d) For connection following disconnection as described in (c) — R1,30;

- (e) For reconnection following disconnection for non-payment of accounts or for breach of contract — R9,50;
- (f) For any service mentioned in the preceding paragraphs (a)—(e) rendered after hours, an additional R2,55.

(ii) **SPECIAL READING OF METER:**

Where a special reading of the meter is done at the request of the consumer, questioning the accuracy of a reading, if the reading is found to have been correct — R1,30.

(iii) **TESTING OF METER AND CIRCUIT BREAKERS:**

(a) **METERS:**

If the consumer is at any time dissatisfied with any particular reading of a meter supplied by the Council and desires to have the meter tested, he or she shall apply in writing to the Council within 10 days of the last day of the month during which the reading was taken and, on payment of a deposit of R29,20 the meter shall be tested by the Council. If the meter is found to be registering correctly, the deposit shall be forfeited; if the meter is proved incorrect, the Council shall refund the deposit, repair the meter and reconnect it without charge. The meter shall be considered to be registering correctly if the error is not more than $2\frac{1}{2}\%$ either way.

(b) **CIRCUIT BREAKERS:**

If the consumer is at any time dissatisfied with the rating of the circuit breaker controlling his or her installation, he or she shall apply in writing to the Council and, on payment of a deposit of R2,55 the circuit breaker shall be tested by the Council. If the circuit breaker is found to be operating correctly, the deposit shall be forfeited; if the circuit breaker is found to be operating incorrectly, allowing less current than the nominal rating, the deposit shall be refunded and a correctly-rated circuit breaker installed without charge. A circuit breaker shall be deemed to be correctly rated if it carries full-rated current for a period of one hour without tripping.

(iv) *Location and Rectification of Faults:*

Where electricians of the Council are called on to locate and rectify faults for consumers, the charges shall be:

- (a) If work is done during official working hours R2,30 per call.
- (b) If work is done outside official working hours R2,90 per call.

(v) *Installation Charges:*

All applications for new connections must be made to the Town Electrical Engineer by a registered electrical contractor. The charges shall be paid to the Town Treasurer at least 48 hours before connection is required.

For making connections and installing meters, etc. to premises the charges shall be -

- (a) Overhead service connection where an overhead supply main exists: -

Single phase	R15,95
Two phase	R25,30
Three phase	R37,95

- (b) Where a cable connection is necessary, an estimate of the charges may be obtained from the Town Electrical Engineer on application. The amount to be paid for the connection will be the actual cost of material, labour and transport, plus 15%.

(vi) *Miscellaneous Services:*

For work done and services rendered by the Council where such services are not chargeable under any of the preceding tariffs, the charge shall be actual cost of material labour and transport, plus 15%.

(vii) *Deposits:*

- (a) The amount of consumer's deposits, required in terms of regulation 34 of Part II of these regulations shall be at the discretion of the Council with a minimum of R5,00.
- (b) The deposit (or part thereof) may be appropriated by the Council at any time to cover accounts unpaid.

GENERAL PROVISIONS

5. (a) In all cases of doubt in any matter relating to these tariffs and the conditions laid down for the application of these tariffs, the decision of the Council shall be final;
- (b) Should the Council find that the conditions of the agreement for the supply of electricity have materially altered, or that the consumer does not comply with the agreement in any way, it shall be lawful for the Council to charge and the consumer concerned shall be liable to pay for the consumption at such scale under these regulations as may, in the opinion of the Council, be applicable as from such date as the conditions aforesaid were changed or appear to Council to have been changed.

- (c) Every consumer's account will, as far as it is practicable, be rendered monthly, and payment of same must be made within fourteen days from the date of such rendering, failing which the supply of electricity to the consumer may be disconnected after the expiry of a final notice to that effect, and such supply shall not be reconnected until the amount of the account and the reconnection fees prescribed in this appendix have been paid in full.
6. (a) The preceding paragraphs shall, from the date of promulgation of this amendment, be applicable to all connections installed after the said date and shall also be applicable to all installations where the consumer has been notified that the new tariff applies to him.
- (b) On all other installations, i.e. those not yet brought into line with the new tariff, the tariff contained in the regulations which are repealed hereunder, shall apply for a period of six consecutive monthly meter readings from the date of promulgation of this amendment.

The said amendment has been approved by the President under section 243 of the said Municipal Ordinance, 1963.
