APPLICATIONS FOR REGISTRATION OF TRADE MARKS IN NAMIBIA

(Applications accepted in terms of Act No. 48 of 1973)

Any person who has grounds for objection to any of the following trade marks, may, within the prescribed time, lodge Notice of Opposition on form SM6 contained in the Second Schedule to the Trade Marks Rules in Namibia, 1973. The prescribed time is two months after the date of advertisement. This period may on application be extended by the Registrar. Where the Gazette is issued late, the period of opposition will count as from the date of issue and a notice relating thereto will be displayed on the public notice board in the Trade Marks Registry.

Formal opposition should not be lodged until after notice has been given by letter to the applicant for registration so as to afford him an opportunity of withdrawing his application before the expense of preparing the Notice of Opposition is incurred. Failing such notice to the applicant an opponent may not succeed in obtaining an order for costs.

"B" preceding the number indicates Part B of the Trade Mark Register.

Neither the office mentioned hereunder nor Solitaire Press CC., acting on behalf of the Government of Namibia, guarantee the accuracy of this publication or undertake any responsibility for errors or omissions or their consequences.

96/0259 in Class 93: Scientific appliances, devices and instruments for laboratory research purposes; electric and electronic appliances, devices and instruments (to the extent included in Class 9); physical, chemical, optical, photographic, nautical and geodetic appliances, devices and instruments; weighing, signalling, measuring, counting, recording, monitoring, testing, control and switching devices; electric switchgear and control cabinets; stacking systems for electric switchgear and control cabinets essentially comprising any combination of apparatus racks, support frames and profiled struts; mounting racks essentially comprising any combination of side panels, connecting bars, locking bars, support bars and guide rails; plug-in modules essentially comprising any combination of parts to locate and/or combine printed circuit boards; thermostats; lasers for technical purposes; electron microscopes; remote control devices; automatic machines which are coin or token-operated;

electric and electronic devices for data acquisition, processing, transmission, storage and output, particularly general-purpose computers, central processing units, personal computers, workstations, storage devices, terminals, control devices, printers, interface units and input/output devices including keyboards and displays; teleprinters; photocopiers; fax machines; data processing programs; recording charts for images, tones and data (except unexposed films);

electric wires and cables including auxiliary cable laying equipment such as installation rollers, cable rollers, angle suspension brackets, joint box relief systems, drum blocks, cable drums, delivery spools and splicing machines; conductor rails; line and cable accessories; electrical installation material (to the extent included in Class 9) particularly switches, dimmers, sockets, switched socket outlets, splitting boxes, aerial sockets, loudspeaker and junction boxes, communications plug-and-socket devices; window louvre pushbuttons and switches; thermometers; hygrometers; plug-and-socket connections, fuses, screw-in mini circuit-breakers, proximity switches, residual-current-operated-circuit-breakers, relays, contactors, cable lugs, cable junction boxes, cable cabinets, fuse boxes, branching boxes, junction boxes, distribution cabinets, switchboards, time switches, electricity meters; ultrasonic and infrared transmitters and receivers and

associated relay stations for switching, dimming and momentary contact switching functions; modules for switching and dimming; time-delay switches; synchro generators; filament transformers with electric starting aid for brightness control of fluorescent lamps; control gear and automatic control equipment for fluorescent lamps; switching and control gear for building services management systems; signalling devices; door entry security systems; distribution, ducting and laying systems for electrical installations; electric and electronic alarm devices and systems and site security devices and systems, particularly intruder detection systems and police alarm systems, anti-theft systems, security access systems and video monitoring systems; infrared pass-key systems; autonomous hazard signalling devices and protection equipment for water and fire damage; electronic tagging systems; personal identification devices;

electric and electronic equipment and systems for process control engineering; servicing equipment and automated machinery for power plant applications, i.e. pipe testing equipment, equipment for non-destructive testing of materials in power plants, eddy-current test equipment, ultrasound test equipment, leakage detectors, robots, equipment for decontaminating power plant components that have become contaminated with radio activity; electric recording and measuring equipment for air, water and soil pollution, and for noise, vibrations, radioactivity and meteorological data; electrical and electrotechnical devices and systems for water purification and treatment; process engineering equipment, i.e. pressure throughflow measuring instruments, pressure gauges, regulators, actuator drives; electrical and electronic devices for analytical technology such as systems analysis, chromatography, X-ray analysis; X-ray equipment for technical purposes; weighing technology devices and systems; electric couplers; programmable controllers, particularly for machine tools, manipulators, robots, installation and material handling machines; electrical equipment for machine tools and special-purpose machines; devices and their components and systems consisting of such devices and components for the identification and localization of leaks in tanks and containers holding solid, liquid and gaseous substances; equipment for nondestructive materials testing;

high-voltage, medium-voltage and low-voltage circuit-breakers and switchgear; h.v.d.c. transmission systems; electric rectifiers and inverters, instrument transformers; arresters; vacuum tubs for switchgear, switchgear cabinets; metering devices for use in conjunction with electricity, gas, liquids and heat; I & C equipment and devices for switchgear and power system control; transformers; power lines and cables; electronic dynamometers and torque measuring equipment; electronic load indicators; solar collectors; emergency power supply devices; electrotechnical, electronic and ceramic components and subassemblies consisting of such components (to the extent included in Class 9); electric batteries; fuel cells; accumulators; solar cells and solar energy systems constructed from them; sensors; optoelectric components and subassemblies consisting of such components (to the extent included in Class 9); optocouplers;

electrical resistors; capacitors; inductors; coils; NTC and PTC thermistors; filters (to the extent included in Class 9); printed etched, encapsulated and integrated circuits; chip cards; chip card readers; testing devices for electrotechnical and electronic components and subassemblies;

magnets and resonators;

electronic tubes; surge voltage protectors;

equipment for the recording, emission, transmission, reception, reproduction and processing of sounds and/or characters and/or images; communication devices and systems made up of such devices; data transfer and communication devices; devices and systems for mobile radio communications; devices and systems for the transmission of speech, data and images; satellite earth stations; telecommunication equipment cables and lines and optical fibres for electrical and optical transmission of speech, data and images; telephones; telephone systems; videophones; car phones; telephone answering machines; charge indicators; paging systems; telephones with integral fax machines; two-way radios and radio sets; intercom and two-way intercom systems; modems; couplers, transceivers, concentrators, power supply (to the extent included in Class 9) and collision detection device and optical plug-in modules for fibre-optic communications technology; television cameras; radios; car radios; television sets; record players; CD recording equipment and players; cassette recorders; video recorders;

Aerials and aerial systems; radar sets; short-wave transmitter and receiver stations; radio access systems; ground-air communication systems; radio direction finding equipment; satellite position fixing equipment; encoding devices; thermal imaging devices; laser distance measuring equipment; IFF systems for aircraft; devices for reception, localization and classification of electromagnetic signals;

navigational devices for land vehicles, shipping and aircraft; traffic decoders; pilot computers; on-board computers; devices for airbag diagnosis; temperature sensors; cable harnesses; vehicle wiring systems; motor control devices; ignition; ignition control and ignition trigger devices; devices for fuel injection control and central fuel injection; resonators for automotive engineering; electronic control systems for gear, drive, differential, braking, antiskid, four-wheel steering, damping, self-levelling suspension and clutch systems; automobile diagnostic equipment; acoustic and optical signalling devices and annunciators; devices for railway signalling technology and systems constructed from such devices; electric signal boxes and their components;

electro-acoustical and conference systems and equipment for recording and video studios; recording and video transmission and production systems; appliances and devices for cable TV and systems made up of such items; photographic and film equipment including video cameras; loud speakers; loud speaker boxes; microphones, earphones; electronic amplifiers;

electric irons; electric cleaning equipment; electric vacuum cleaners and their components particularly vacuum cleaner nozzles and brushes; electric floor cleaners and polishers; electric carpet beaters and cleaners; window cleaning devices; shoe devices; microchronometers; electric food-wrap welding devices; kitchen scales; personal scales; in the name of **SIEMENS AKTIENGESELLSCHAFT**, a German company of Wittelsbacherplatz 2, München, Federal Republic of Germany.
